14. I'm certainly open for discussion on it.
15. We need to create stronger police-community relations through education, awareness, and acceptance. As a starting point, we must develop programs and set-up organized meetings to further educate all.
16. I would have voted to raise the minimum wage. An ideal minimum wage for Chicago is \$15.00. Anytime individuals work 40 hours a week and they cannot pay their cost of living bills, then you need government intervention. It would also promotes a healthy middle class.
17. In order to alleviate the crime rate, we need to encourage the police to expand the number of officers walking the beat to strengthen community-police relationships. We also need to hire more police officers.
18. Even though there are many issues, the top issue in the First Ward of Chicago is the lack of city services being utilized properly. As alderman, I will work to ensure that city services will be promptly and efficiently provided. The greatest concern from constituent feedback is the lack of accountability and response times. Upon taking office, I will develop a mobile application for residents to communicate directly with the Alderman's office to report issues such as potholes, graffiti, burned out street lights, reporting rodent

problems, and more. Constituents will be able to work directly with the Alderman's office and I will be accountable to make sure their concerns are resolved.

19. We need to provide more shelters, rehabilitation programs, and places for 2<sup>nd</sup> chances to the entire homeless youth.

20. Yes.

21. Not the incumbent.

22. I have friends and colleagues that are LGBT. The LGBT issues are very important to me in ensuring acceptance and equal opportunity.

23. Equal opportunity is the biggest problem. We need to further educate our communities on accepting all, not just some.
